[photo of student sleeping in bed, part of litigation with the lower merion school district in pa.]

the starting five

• begin saying ‘autonomy privacy’ and ‘information privacy’ instead of ‘privacy’.
• ‘privacy is an underpinning of academic freedom.’ discuss.
• be familiar with the ecp and its privacy provisions.
• you’re the new kid on the block: socialize.
• don’t assume everyone has the same context (e.g., ‘nothing to hide’).

you have zero privacy anyway.

get over it.*
